## The First 6 Months

By the CEO

A strong foundation plays an intrinsic role in organizational development and sustainability. The past 6 months have been spent building a community-focused nonprofit organization. The young organization has gathered a full board, facilitated gap-focused community collaboration in each priority area, and implemented various fundraising, donation collection & redistribution community outreach efforts. 2023 also marks the inception of The Group's first website location and Facebook Page. These prior efforts will continue to create organizational efficiencies and opportunities through 2024.

## Office Move

Starting in January of 2024 The Self Reliance Group will be based at 1115 Summer Street, Burlington IA. This move was necessary to significantly increase organizational capacity.

The Group is looking forward to the implementation of budding programs and community services. These will be housed in the new neighborhood-embedded office location.

The Group's work has started to expand beyond the capacity of a singular staff member. Stay tuned for growth updates!
